Dear Sir/Madam:I am very concerned that there is a petition (NAB petition 04-160) pending before the FCC that would stop XM radio from providing XM instant traffic and weather. This is an extremely valuable service to me since I can check with XM Radio before I leave my house in Williamsburg, VA to determine what the traffic situation is in the Washington DC area. This was not possible before XM radio and it saves me time and gasoline. Multiply my experience by millions of others and you can see the benefit of this service.

Once again, please DENY NAB petition 04-160.
